Activity F1 – Workplace Plant Health Monitoring

Answer the following questions based on the farm you are completing your work experience at:

1. How often is sampling performed on your farm?

2. Who manages the sampling?

3. What was the last nutritional deficiency on the farm? If there was none, suggest a possible nutritional deficiency.

4. How was that deficiency detected? If you created a theoretical deficiency, suggest a method of detecting that deficiency.

5. What symptoms did the deficiency cause? If you created a theoretical deficiency, suggest the possible symptoms of that deficiency.
