Chapter 1

Activity P1

Complete this activity to test your knowledge of the entire chapter:

1. What is best practice for keeping records?

Using a standardised form or program and to keep all records in one central database.

2. What information should scouts include when reporting visual observations?

Visible symptoms of nutrient deficiencies, the date and location of scouting, and the affected trees.

3. What information should scouts include when reporting soil sample results?

The date of sampling, nutrient levels, and any recommended improvements.

4. What information should scouts include when reporting leaf sample results?

The date of sampling, nutrient levels, and any recommended improvements.

5. What information should scouts include when reporting fertilisation history?

The type and quantity of fertiliser used, timing, and method of application.
