Contents

Chapter 1 Activity P1	4
Chapter 2 Activity P2	5

Chapter 1

Activity P1

Complete this activity to test your knowledge of the entire chapter:

1. What are agrochemicals?

2. Name three examples of agrochemicals.

3. Which agrochemicals can be dangerous to humans?

4. When should clothes and equipment be washed?

5. How far away from water sources should chemical storage and mixing facilities be constructed?

6. What are the three ways poisoning can happen?

7. How should a spill be contained?

Chapter 2

Activity P2

Complete this activity to test your knowledge of the entire chapter:

1. What should an agrochemical storage area be like?

2. What facilities must be easily accessible in the storage area?

3. How many fire-extinguishers should be available in the storeroom?

4. How should agrochemicals be grouped in the storage?

5. On what basis should products be used?

6. What information should the agrochemical label include?

7. Of the five toxicity groups that agrochemicals are classified into, which group is the most dangerous?
