| DCT Pier 1      | Reports of delays into Pier 1 due to a truck overturning at the entrance area                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| DCT Pier 2      | No issues reported. Reefer plug-in occupancy 75%, available 316 points.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Maydon Wharf CT | No problems reported.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| FPT Terminal    | Terminal stock levels are high, increased railings of phyto market consignments reported.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| General         | <p>Forecast 10 container vessels loading 1,655 FEU's = 33,100 plts and 4 break-bulk vessels loading at FPT this week = 6,500 plts. Total pallets forecast this week = 39,600plts.</p> <p>There is an outcry from the northern region regarding the lack of availability of trucks servicing the area. It is apparent that a backlog of dispatches has developed at packhouses. In consultation with various transport brokers, there appears to be difficulty to source trucks to service the area at present as transporters are not allocating sufficient trucks to move citrus, delays in the port being one factor. The FPT facility is presently at full capacity, trucks are being diverted to 328ICE in the interim. More discussions will be held with FPT in respect of continued delays to trucks routed to the facility. When dispatching trucks to Durban it is best to ascertain with exporters/agents with regards to available capacity to accept railings.</p> |
