South Africa: Seminar on managing False Codling Moth

The control of False Codling Moth (FCM) in orchards has become one of the greatest challenges for stone fruit producers in SA. If not dealt with effectively it can possibly become a barrier to global market access. To assist growers with the management of FCM, HORTGRO Science will host an information day covering several FCM-related topics. These will range from the phytosanitary status of FCM to feasible monitoring strategies.

WHEN: October 11, 2016 @ 8:00 am – 1:00 pm

WHERE: Olive Grove - Infruitec-Nietvoorbij

COST: R350
