CGA raises its 2018 southern African citrus export estimate

05 Apr 2018 - by Staff reporter

The Citrus Growers' Association has revised its 2018 southern African citrus export prediction from 131.7 million 15-kilogram cartons to just shy of 133 million.

This is due to an early correction in the soft citrus export estimates where an increase of 0.2 million 15-kilogram cartons and a significant 1 million 15-kilogram cartons is now expected for clementine volumes and mandarins respectively.
