

The Citrus Academy Bursary Fund had another successful year in 2017, with eighteen students graduating, nine of whom started new qualifications in the 2018 academic year. Excellent academic results were achieved by many of the students.

We received a record-breaking 652 bursary applications for the 2018 academic year and we are pleased to announce the successful 80 applicants. We welcome all new and returning students and wish them a fruitful year ahead.

We are expecting a busy year ahead with students attending various conferences and symposia around South Africa.
