

The Citrus Academy launched the Citrus Short Course in October this year

The Citrus Short Course is a high-level programme aimed at those who already have a basic understanding of agricultural production practices and needs to expand their understanding of citrus production. The programme covers all aspects of citrus production, including the history of the industry, the roles of

industry organisations, citrus production practices, and the citrus export value chain. The course is implemented in the form of a regional workshop over three days of which one day is dedicated to a field visit.

For more information on the Citrus Short Course and to register, please visit www.citrusacademy.org.za

Citrus Short Course

Citrus Academy students at PMA Fresh Connections with Jacomien de Klerk of the Citrus Academy.

Equip: Learning from the best

The Citrus Academy's Industry Exposure Programme provides Citrus Academy Bursary Fund students with opportunities to gain exposure at conferences, symposiums and other events related to their fields of study.

August was a very busy month for our students with PMA Fresh Connections and the Citrus Research Symposium.

Ten Bursary Fund students were among the 500 delegates who attended the 8th Annual PMA Fresh Connections: South Africa Conference and Trade Show, which was held at the CSIR Convention Centre in Pretoria. The theme of the event was

'Connect Local, Grow Global'. Students gained invaluable experience networking with industry leaders. The students took part in the Career Pathways programme which was sponsored by the AgriSETA.

Eleven Bursary Fund students attended the 10th Citrus Research Symposium, held at the Champagne Sports Resort in the Drakensberg. It was proudly #goteamcitrus throughout the symposium, seeing past and present Citrus Academy students in the speaker line-up amongst the guests and working within CRI. As always, our students made a big impact with their branded T-shirts and lively presence.
