

Citrus Academy e-learning

Citrus Academy short courses can all be completed through the Citrus Academy e-learning platform. Once the learner has worked their way through all modules and successfully completed all assessment activities, they are awarded a certificate of competence.

Citrus Production

Learn about all aspects of citrus production including the history of the industry, the roles of industry organisations, citrus production practices and the citrus export value chain.

R2,875 (incl. VAT)

Citrus Packing

Learn about citrus packhouse practices, including receiving, fruit treatments, sorting and packing, meeting market requirements, and maintaining traceability and food safety.

R2,875 (incl. VAT)

Citrus Export Supply Chain

Learn about what happens to citrus export fruit after it leaves the packhouse until it arrives in the overseas market, including all about service providers, market requirements, special markets, inspections, documentation and best practices.

R2,875 (incl. VAT)

Citrus Business Administration

Learn about financial accounting (including budgeting), stock management, human resource management, production management and marketing.

R4,887.50 (incl. VAT)

Phytosanitary Monitoring and Inspection Assessment for Certification

Learn about the systems and protocols the citrus industry has implemented for the monitoring and inspection for infestation of pest insects, in particular false codling moth (FCM) and fruit fly, that are of particular concern to sensitive export markets.

R345 (incl. VAT)

COVID-19 Compliance Officer Training Assessment for Certification

Learn about the relevant regulations and requirements around the management and mitigation of COVID-19 infections in the workplace, as well the responsibilities of the appointed COVID-19 compliance officer in the workplace.

R345 (incl. VAT)
