Citrus Short Courses

Citrus Academy short courses are aimed at providing a short, sharp insight into essential components of the citrus production system. Short courses will give you a good induction into the subject matter, help you to understand how that component fits into the wider production system, and they are a good starting point if you would like to enter a career in that aspect of the system.

We currently offer the following short courses:

- Citrus Production
- Citrus Export Supply Chain
- Citrus Packhouse
- Citrus Packhouse Quality Control
- Citrus Economics

The short course schedule can be viewed on the [Citrus Academy website](http://www.citrusacademy.org.za).
