Citrus Academy Short Courses Survey

Citrus Academy short courses are aimed at providing a short, sharp insight into essential components of the citrus production system. Short courses will give you a good induction into the subject matter, help you to understand how that component fits into the wider system, and is a good starting point if you would like to enter into a career in that aspect of the system.

We've had requests from various regions for citrus short courses. Please [click this link](#) and complete the survey to indicate which courses we should arrange for your region.

For more information, please email our Project Coordinator, [Sive Silo](#).
