Keeping all RBX Group Stakeholders Informed

Note from the Managing Director

The world is a challenging place to do business these days. During the Citrus Road Show events it is evident that many of these challenges are extremely real for the citrus industry. The significant increase in some input costs, the complicated logistics issues and downward pressure on final sales prices mean that everyone in our industry is going to have work together and do everything possible to support the industry going forward.

Add to this the insanity that is happening in the Ukraine and the fact that 10% to 15% of our current citrus crop was destined for these regions mean the challenges just seem to keep coming. Our values of courage and commitment are going to be very important over the next few months to ensure we do all we can to make a difference.

Cheers - Rob

River Bioscience Takes to the Cycling Tracks

The team spirit was fierce on Sunday, 13 February, when a few of our staff took part in the annual Herald Cycle Tour Mountain Bike race.

Starting at the Addo Polo Club in the Eastern Cape, the 30km route took the riders on gravel roads and jeep tracks through citrus orchards and along the irrigation canals in Addo. The mountain bike trail is a non-technical route and is perfect to enjoy on a leisurely day out. The team enjoyed the experience and spent some quality time in the valley.

Rob Elfick, our MD, also challenged

himself by doing the Main Road Race Feature that took place on Sunday, 20 February. He completed the 106km road race in extreme

winds which PE is well known for.

Congratulations to all who took part and completed the races!

March Birthdays

Karen Basson, Danrich Basson, Anrich Dars, Elduniqué Fortuin, Marvin Fransman, Erenst Hugo, Samotia Jansen, Adriaan Ludick, Alida Mentoor, Nomalizo Ngomane, Marshall Pieterse, Sinazo Qeshani, Charlene Scott, Anorelle Slinger, Petrus Smit, Mochelle Snyers, Maria Swart, Nicolaas Syster, Izak Theron, Franquin Titus, Johan Vorster
