December 2022/January 2023

Keeping all RBX Group Stakeholders Informed

Note from the Managing Director

We all thought that 2020 was the worst year in living memory as we endured it, but then to our surprise 2021 was even worse than 2020 in many respects as the full impacts of the lock down disruptions were felt. This resulted in us entering 2022 with Covid restrictions being lifted and a feeling of optimism that some form of “normality” was about to return. Little did we know that a nuclear super power had other ideas and that a significant war would now be in its 10th month in Europe as we enter our 2022 “holiday” season.

The economy has been extremely tough on everyone and I do not know any person or business that has not been seriously affected by the cumulation of all these disruptive forces. This is also not a South African specific issue, but being felt all round the world as prices skyrocket out of control.

At times like this it is often needed to take a little stock of what we actually have. When we see the hardships that people are experiencing on a daily basis in our country and around the world some reflection can help us appreciate what we have and that people less fortunate than us are praying for the daily things we have, and sometimes take for granted.

Throughout all the above I have been inspired by how the RBX team have handled each and every challenge. I want to thank you all for your dedication and hard work through a very tough time and even though this is a busy time for our SIT programme and SPLAT application teams I hope you will all be able to find some time off to relax and share with your family and friends.

Lets focus on what has to be done, take a break when we can and come back in 2023 ready to move forward with the support and passion of our whole fantastic team.

**Wishing you all a great festive season and a fun time.
Be careful and stay safe!**

CHEERS, ROB
