## 1. Citrus Propagation Requirements

- Introduction
- The Citrus Improvement Scheme
- Citrus Propagation Process
- Nursery Requirements
  - Tools & Equipment
    - Seed Germination Trays
    - Seedling Trays
    - Planting Bags
    - Planting Tools
    - Budding Tools
    - Plant Stakes
    - Other Equipment
  - Propagation Media
  - Propagation Structures
    - Germination Rooms
    - Greenhouses
    - Shade Houses
- Environmental Conditions
  - Humidity
  - Aeration
  - Light
  - Temperature
- Conclusion

## 2. Citrus Propagation Methods

- Introduction
- Rootstock Sowing
- Transplanting Seedlings to Seedling Trays
- Transplanting Seedlings to Planting Bags
- Budding
- Post-Budding Process
- Staking
- Topping
- Nursery Practices
  - Irrigation
  - Fertilisation
  - Pest and Disease Control
  - Weed Control
  - Recordkeeping

## 3. Citrus Rootstocks

- Introduction
- Rootstock Selection
- Rootstock-Scion Compatibility
- Identifying Rootstocks
- Common Rootstocks
  - Rough Lemon
  - Volckameriana

Cleopatra Mandarin  
Carrizo and Troyer Citrange  
Swingle Citrumelo  
C35 Citrange  
Benton Citrange  
X639 Hybrid  
Minneola x Trifoliate Hybrid (MxT)  
US-812 (Sunki x Benecke)  
Conclusion
