

Standard Set of KPIs for a Packhouse

KPIs	Indicator
5s	Audit
Attendance (morale)	Days or %
Automation vs Manual Packing	Time, tonnes, cost
Bins/Trailers incoming	Number
Cent per kg (cost KPI)	Rand value
Down time	Time, losses in Rand value
Dwell time (Packhouse and at the port)	Time
Fruit per hour (cup fill)/ tonnes per head per day	tonnes, cartons
Input costs (Diesel, Chemicals, Water, Power)	Rand value
Labour cost	Rand value
Loads per day (inspected and loaded)	
Maintenance KPIs	Rand value, breakdown
Packout %	%
Quality - inspection points, 8% fault in a box target,	Audit, set thresholds
Reconciling incoming, processed, packed, and waste weight (run report)	Run report
Rejections (PPECB)	Number or %
Stock levels (logistics)	quantity/ Rand value
Target of breakdowns vs preventative maintenance	Time, losses in Rand value
